## 2021 CE Webinar Series

The Kentucky Optometric Association will be offering continuing education via webinars during the rest of 2021! The webinars are free to KOA members and \$25 for non-members. The webinars count as online continuing education towards your KY license. Reminder – the KBOE announced that the 2020 and 2021 CE hours for license renewal will be due at the end of 2021, so you have the opportunity to take up to 10 online CE hours.

Please see the updated webinar list below. After registering (register for each webinar separately), you will receive a confirmation email with information about joining that specific webinar.
